QUALITY FIREPLACES FOR LIFE.

BAYPORT 41 & BAYPORT 36

DIRECT VENT GAS FIREPLACES

Bayport 41 Log shown with an Arched Mission screen front in Weathered Charcoal and Brick refractory

THE BAYPORT 41

The **Bayport** offers a large and impressive viewing area with our most realistic logs and burner system yet. The **Bayport 41** comes in both the Glass and Log version, and the **Bayport 36** comes in three versions, the Log and Glass versions and a millivolt version! With this many options, the **Bayport** provides you the maximum comfort and efficiency available in a gas fireplace. With porcelain reflective panels (standard with the **Bayport 41 Glass** and **Bayport 36 Glass**) create a spectacular view, and combined with a hand-crafted front, make the **Bayport** a perfect choice for a traditional or contemporary design in your home.

ACCESSORIES & CONTROLS

The Komfort Kontrol remote gives you the ability to bring comfort and green technology all together into your home. With the Komfort Kontrol remote, all you have to do is decide a comfortable set point temperature on your remote and when the room temperature gets closer to the point you desire, the Komfort Kontrol remote will turn the flames down accordingly! And with our zone heating, you can save energy and enjoy time in the room you use the most by just turning down the central heat, setting your Komfort Kontrol remote, and enjoy your time around the fireplace with friends, family, or just a good book! That way you'll get to have heat where and when you need it while saving energy and money with just a click of the Komfort Kontrol remote!

Refer to the installation manuals for complete installation & venting requirements. See additional mantel clearance configurations in the installation manual.

Note: Over time, antique copper will react with oxygen, heat, and other

aspects of the environment and naturally change color, or patina.

Vent System Approval & **Requirements**

This fireplace is manufactured to accept 4"x 6-5/8" pipe only.

- Simpson Dura-Vent[™] DV-PRO Pipe 4"x 6-5/8"
- Selkirk Metalbestos™ direct chimney system -4"x 6-5/8"
- Ameri-Vent/American Metal[™]direct chimney system - 4"x 6-5/8"
- Metal Fab[™] 4"x 6-5/8"
- ICC[™] 4"x 6-5/8"
- Kozy Heat[™] Flexible #700 series vent kits^{*} -4"x 6-5/8"
- BDM™ direct vent chimney system 4"x 6-5/8"

IMPORTANT: A wall thimble/pass thru must be used on ALL horizontal vent runs that pass through interior **OR** exterior walls. (follow vent manufacturers instructions)

The included horizontal vent heat shield must be installed when incorporating minimum horizontal venting. This applies to NG and LP minimum horizontal venting configurations.

Elbows: For each additional 90° elbow used after the first elbow, 3' must be subtracted from the maximum venting allowed. For each additional 45° elbow used after the first elbow. 11/2' must be subtracted from the maximum venting allowed. Note: (2) 45° elbows = (1) 90° elbow.

Horizontal Terminations

Horizontal Venting Configurations differ between Log and Glass models. Consult their installation manuals for guidance.

Vertical Terminations (Rear Venting) **Minimum:** 90° elbow + 3' + cap Maximum: 90° elbow + 50' + cap

Vertical Terminations (Top Venting) Minimum: 3' + vent cap Maximum: 50' + vent cap

In order to continually provide the highest quality product available, features/options, specifications & dimensions are subject to change. Refer to the unit installation manual for complete installation instructions. Installation must conform with local building codes. In some regions it may be possible that this appliance qualifies for an energy rebate. See your local dealer for details regarding promotions and qualifications.
