

Legend G3 | Insert Series

Legend G3 Fireplace with Log Set Kit (739LSK), Red Brick Liner (739VRL), FenderFire Double Doors (743FVI) & Cast Surround (715CVI)

Legends Are Made. Not Born.

The Valor fireplace family showcases over a century of advancements in radiant heat technology and distinct hearth designs for your home.

Since introducing the first Valor Legend insert model in 1991, we continue to adapt and improve on all aspects of our flagship line. With constant innovation in product design and function, our objective is to exceed the expectations of Valor customers on every level.

Easy-to-use, energy saving features position the Valor G3 insert as a leader in efficient, effective zone heating - a true upgrade in heat control, product reliability and overall home comfort.

Update your existing living space with a wide selection of stunning fireplace designs in both traditional and contemporary appeal. A diverse collection of fronts, trims and hearth accessories provide endless installation opportunities for your dated, inefficient fireplace.

Embodying over 100 years of Valor tradition accompanied by the latest in state-of-the-art technology, the Legend G3 continues to be the industries number one selling radiant gas insert.

FenderFire Single Door (744FVI) and Cast Surround (715CVI)

Clearview Front (745CFV), Clearview Fret (758CCB) & 4-Sided Square Trim Kit in Vintage Iron (757STV)

LEGE

DIMENSIONS 738 B-VENT MODEL

FIREPLACE SAFETY - USE RADIANT HEAT SAFELY

Fireplace surfaces, in particular the glass viewing window, are extremely hot during operation and will remain hot for a period of time after the fireplace is turned off. Contact with the hot glass can cause severe burns. Close adult supervision is required if there are young children, or at-risk individuals in the house.

Included with your purchase, a Valor Barrier Screen is recommended at all times. Install an approved aftermarket safety gate to keep toddlers, young children and at-risk individuals a safe distance from the fireplace.

For more information please visit www.valorfireplaces.com/safety.

LEGEND G3 DIMENSIONS, VENTING, MANTEL & CAVITY CLEARANCES

MANTEL CLEARANCES

Mantel Pro-	1"	1"– 6"	9"	12"
jection A	(25 mm)	(25–152 mm)	(229 mm)	(305 mm)
Mantel	36"	39"	42"	45"
Height B*	(914 mm)	(991 mm)	(1067 mm)	(1143 mm)

*Measure taken from the underside of the mantel to finished hearth or surface that the unit is sitting on

Sidewall Clearances - Minimum distance from side of appliance (liner box) to combustible wall - 9" (229 mm)

MINIMUM CAVITY DIMENSIONS

- Minimum depth (X) = 12-14'' (305-357 mm) - varies with outer trim options

- Minimum height (Y) = 20'' (508 mm); 24'' (610 mm) when using 763BPB Backing Plate

- Minimum width of fireplace opening at front is 28" (711 mm)

Installation reminder - Check that masonry step does not interfere with install dimensions or vent pipe.

Designed and manufactured by:

Copyright Miles Industries Ltd. 2015 Proudly made in North America BRLEG315aE - Nov. 2015 Printed on recycled paper 🖽

Ideal for "up the wall" applications, the Picture Frame trim kit is evenly proportioned and landscape in design. The 764PFB 4-Sided Picture Frame Square Trim Kit works exclusively with the 765 Contemporary Front collection (shown below). Available in black only, the 764PFB trim kit must be installed with a 765 Contemporary Front (4 finishes to choose from - copper, black, brushed nickel & painted nickel).

- 1. 3-Sided Black Square Trim Kit (756STB) & 4-Sided Contemporary Front in Copper (765CSC)
- 2. 3-Sided Black Square Trim Kit (756STB) & 4-Sided Contemporary Front in Brushed Nickel (765CSN)

VALORSTAT REMOTE - HOME COMFORT CONTROL

The advancements of electronics has raised the bar in smart fireplace design. The ValorStat control system maintains a steady, even comfort and can be programmed to provide heat exactly where you want it, when you want it. The ValorStat Plus remote pilot ignition system (on direct vent models only) allows you to turn the pilot light on and off directly from the handset. Each Legend G3 Insert comes standard with a ValorStat handheld remote.

THE VALOR COMFORT ZONE

Pumping forced air heat through your entire home is often inefficient. Targeting specific areas that you frequent the most is more economical and efficient in the long run. Zone heating with a Valor requires no ducting or forced air, delivering the perfect blend of radiant and convective warmth at the temperature you desire.

THE ADVANTAGE OF RADIANT WARMTH

Like heat from the sun, Valor fireplaces distribute radiant warmth directly to your living space. Radiant heat satisfies human comfort needs, using up to 25% less energy compared to traditional forced air systems. Valor warmth effectively replaces the chill from cold windows and doors, providing steady, even heat to objects in the room. Designed to circulate warm air through natural convection, the Legend Series raises gas insert standards in heat performance and efficiency.

HEAT DURING A POWER FAILURE - NO POWER. NO PROBLEM

If the power fails in the winter your home can get cold fast. Valor fireplaces are fully functional heaters that don't use electricity. Our fireplaces provide the perfect mixture of radiant and convective heat reducing the need for a fan. No power, no problem with Valor.

BURN CLEAN, ENGINEERED GREEN

Natural gas is the cleanest fireplace fuel you can burn, with the lowest particulate levels and lowest levels of greenhouse gases. Valor specializes in the design of cost effective, heat solutions for your home.
