RAIS STOVES ARE SPECIAL

They stand out. From the crowd. And in your home.

Our philosophy is simple and straightforward: A stove from RAIS has to be more than just a heat source. It has to combine aesthetics and technology. Form and function. Design and craftsmanship.

We call our philosophy Art of Fire. We do so, because RAIS stoves have it all. They are efficient heat sources, utilizing the energy of the fire optimally, as well as streamlined design objects - sculptures, integrated in your home.

RAIS stoves are also eco-friendly heat sources, ensuring efficient combustion at even a low burn rate. They are able to draw in combustion air from the outside, in order to provide a better indoor climate.

And there is a RAIS stove for any home and any decor. From castle to cabin. From nostalgia to modern minimalism. Take your pick!

We call it **ART OF FIRE**

RAIS VIVA L

The new RAIS Viva L series is in a league of its own. Circular, smooth and beautiful, it is a true proponent of the elegant and minimalist. The large glass door practically creates the impression of an open fireplace and allows you to enjoy the fire to the max.

What makes the RAIS Viva L stoves truly unique is the customizable design. Choose between Glass or Steeldoor, different colors and two heights to create your personal favorite.

AWARD-WINNING DESIGN FROM RAIS

The RAIS Viva L series has won the internationally acknowledged Red Dot Design Award 2017. The series won for its customizable design which can be adapted to match any home, style and interior. Choose between for example different heights and colors, doors in glass or with steel frames, and handles in various designs.

NEW

RAIS VIVA L 100

Add a personal touch to clean-cut RAIS Viva L 100. Choose between different colors, handles, top plates and other options to create a wood burning stove that matches your home decor.

THE PERFECT MATCH...

There is no doubt about it. The kitchen is the true headquarters of the Danish company, SkagenFood. This is where the house chef, Jacob Andersen, invents, creates and tries out the delicious recipes for the meal subscription boxes which the company delivers to homes and families throughout Denmark.

The kitchen also forms a creative setting for Jacob Andersen's social media videos for foodies, and his cooking - and his beautiful kitchen - travel online to far away places. Consequently, nothing was left to chance, when the kitchen was designed and decorated.

The chef chose the RAIS wood-burning stove Viva L in the color nickel to create a cozy and homey atmosphere in the kitchen. The nickel colored stove came to define the rest of the kitchen, as the kitchen cabinet doors were painted in the exact same shade.

RAIS VIVA L GAS

LIGHT A FIRE WITH A FLICK OF A BUTTON OF A BUTTON

Did you know that you do not have to choose a traditional wood-burning stove to enjoy a flickering fire? Our brand new freestanding gas stove, RAIS Viva L Gas, creates the exact same cosy atmosphere and gives you an authentic fireplace experience.

Turn the fire on and off immediately with a flick of a button, and adjust the size of the beautiful flames as well as the temperature with the remote.

RAIS Viva L gas stove series is iconically round and offers an extended view of the flames – just like RAIS Viva L for wood.

Both stoves are customizable allowing you to design your own. Choose between two different heights (100 & 120 cm), three different colors and optional side glass.

The RAIS Viva L Gas comes standard with a safety screen.

FROM FISHING NET WAREHOUSE TO CONTEMPORARY HOLIDAY HOME - WITH A RAIS Q-TEE

Tucked away among cliffs and fjords in the Scottish highlands, a family discovered an old fishing net warehouse on a one-of-a-kind location with magnificent views of a small archipelago across the sea.

With hard work and passion they managed to transform the old warehouse into a contemporary, functional and spectacular holiday home, with panoramic glass walls and sliding doors - just a stone's throw from the sea.

The house is designed to bring in the surroundings, and everywhere you turn and look, you feel the strong presence of the sea, the endless sky and the rocky coast.

There is only detail that breaks with the consistent impression of glass and bright walls: A black RAIS Q-Tee 2 faces the living room and has its back turned on the rugged landscape. It cuts across two floors - all the way to the ridge on the ground floor and then through the first floor.

The Net Store House is located outside the village Ardheslaig on the Applecross peninsula.

RAIS GABO GAS 3

You can't tell the difference! With beautifully crafted ceramic logs and embers, RAIS Gabo Gas 3 looks just like a real wood burning stove.

31 kBTU

RAIS PINA

RAIS Pina stands out as an exclusive piece of furniture that warms your house and entices the eye. The stove was honored with the VESTA design award by the American Hearth & Home magazine.

THEY DREAMED, THEY DREW, MADE CALCULATIONS
- and they carried it through...

SEATTLE

This architect-designed gem is a dream come true. A Seattle family wanted an extraordinary holiday home - and they got it.

The architects were told that the house had to be able to withstand anything. Forest fire. Deep snow. Extreme temperature fluctuations. Family and friends with ski and outdoor gear. Plus, it had to be virtually maintenance-free and fully energy-optimized. The home is made of concrete, aluminum, glass and steel, all of which contribute to a refined retreat perfectly set into a remote North Cascade Mountain valley.

It is called The Ranchero - designed by the Seattle firm CAST Architecture. Floor to ceiling windows and deep eaves bring in generous amounts of light and create an intimacy with its natural surroundings. When the time is right, put firewood in the Scandinavian RAIS Pina from Denmark. It can rotate to face the dining room or the living room as needed. The owners can enjoy the rustic setting without compromise.

The Ranchero reconciles light, warmth, nature and indoor climate requirements, while meeting the highest expectations for design, quality and sustainability.

RAIS RONDO

Lose yourself in the glow of the fire! RAIS Rondo is nothing less than a modern design classic with a beautiful extra-large glass pane door. Add the optional turntable or soapstone top as a unique finish.

A CCESSORIES

We know that it is the small details that make the big difference. That it is the details that form entireties, coherence and synergy.

This is why we have created a series of accessories that match the design of your wood-burning stove and complete your home decor – practically and aesthetically.

The series include everything you may need for your stove - from convection grilles to firewood baskets and fireplace tools.

HANDCRAFTED
ACCESSORIES
FROM RAIS

RAIS BUTEO

Poker, broom and shovel with a holder in an organically shaped design. Mount it on the wall or place it on the floor on a concrete base. Choose between handles in stainless steel or leather.

NEW

RAIS TETRA

Fireplace tools in a raw and minimalist design that combines steel, iron and concrete. Place it on the floor or mount it on the wall. Choose between handles in stainless steel or leather.

NEW

CONSTANT BENCH

Create a cool, industrial style in your home or garden with a wear-resistant bench in contemporary gray fibre concrete. Or why not use it as an untraditional base for Rais Q-TEE?

WALL TOOLS

With stainless steel shafts, black silicone handles and a matching black holder, the fireplace tool set, Wall tools, is pure minimalism. Can be mounted on the wall or placed on the floor on a concrete base.

WOOD RACK

Firewood carefully stacked and kept in place by plain black steel frames creates a rustic and sculptural expression. Turn the rack around and use it as a bench instead. Available in two sizes.

RAIS WOODWALL

Rais Woodwall for storing wood is brilliant in its simplicity. Available in two sizes, with or without back plate and in black or white.

RAIS WOODWALL Freestanding

Use Rais Woodwall Freestanding as a room divider or as a sculpture with a practical function. Available in two sizes and in black or white. Add Wall Tools to complete the look.

RAIS CARRY

Architect-designed Rais Carry reinvents the traditional firewood basket and gives it a new and contemporary expression. Choose between black and creme white. Both color variants come with cognac colored leather handles.

RAIS LIGHTING

Rais Lighting offers luxury storage of briquettes in an elegant aluminum design with leather inserts.

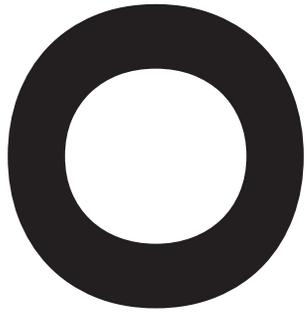

DECORATE WITH FIRE

RAIS

Outdoor living

OUTDOOR

OUTDOOR

RAIS's outdoor collection is traditionally crafted and carefully made with heart, passion and effort. Craftmanship takes time - but the result is worth the while.

The rich rust patina is created by wind, weather and salt water under an open sky. Consequently, no two items are exactly alike, and each grill and fireplace has its own unique story to tell.

Find inspiration to create cozy open-air living spaces with a no-worries vibe - and gather with friends and family to enjoy a crackling bonfire or an alfresco meal.

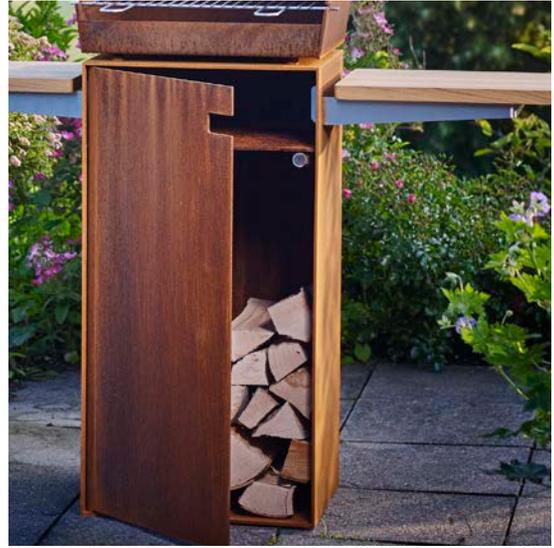

RAIS ANGLE

A sculptural focal point for cosy gatherings and outdoor cooking.

Height: 68"

NEW

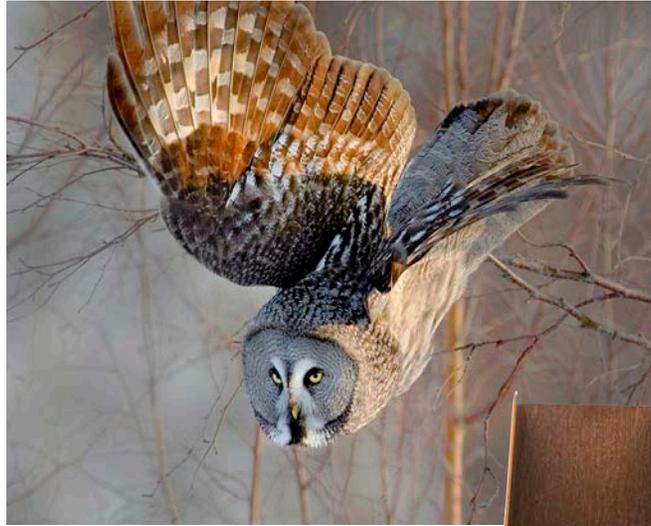

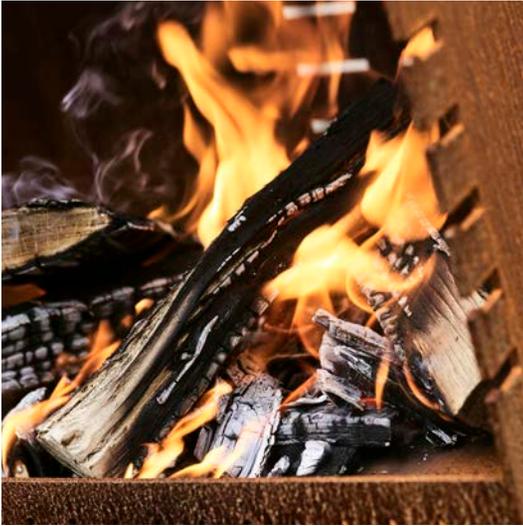

RAIS SQUARE

Grill and fireplace in one with solid oak sides and room for firewood.

Height: 43"

NEW

RAIS GIZEH

Grill and fireplace combined in a striking pyramid-inspired design.

Height: 76"

RAIS LIGHT CONE

Cone-shaped torch with an oil lamp insert.
Available in two heights: 44" and 53".

RAIS RA

Minimalistic fire bowl that adds
ambience to your outdoor
living space.

Diameter: 31,5"

Distance from center of top exit to the back edge of the top plate	6 1/10	inches
Distance from floor to centre of top exit	42 2/5	inches
Distance from floor to centre of rear exit	34 1/5	inches
Center pipe in top to back edge of stove	6 1/10	inches

WEIGHT

Stove	397	lb.
Soapstone top plate	19	lb.

FEATURES

	STANDARD	OPTION
Color: Black and platinum	x	-
Steeldoor with glass	x	-
Top smoke exit	x	-
Stainless steel convection grate	-	x
Soapstone top plate	-	x

RAIS GABO WOOD

TECHNICAL DATA:

HEAT

BTu output	27	kBTU
Heat range (min-max)	12-27	kBTU
Heating capacity (25-68 degrees F)	1000	sq.ft
Emissions	2.1	g/hr
Efficiency	74	%

DIMENSIONS (W-D-H)

Stove exterior	21 1/8 - 18 1/8 - 39 5/8	inches
Firebox interior	14 3/4 - 9 5/8 - 14 1/2	inches
Log length	14 3/4	inches
Pipe diameter	6	inches
Distance from center of top exit to the back edge of the top plate	8	inches
Distance from floor to centre of top exit	39 5/8	inches
Center pipe in top to back edge of stove	5	inches
Floor to center of outside air connector (Ø 4"/100 mm)	4 3/4	inches

DISTANCES TO FLAMMABLE MATERIAL

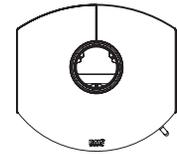

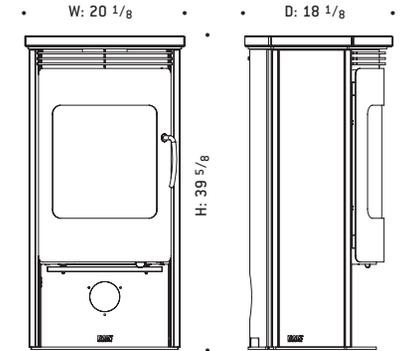

Distance to combustible side wall	11	inches
Distance to combustible back wall	6	inches
Corner Clearance to combustible	4	inches

WEIGHT

Stove	309	lb.
Soapstone top plate	77	lb.

FEATURES

	STANDARD	OPTION
Color: Black and platinum	x	-
Steeldoor with glass	x	-
Top smoke exit	x	-
Outside AirSystem*	-	x
Soapstone topplate	-	x
Stainless steel convection grate	-	x

* Does not include 4" pipe outside

DANISH DESIGN AND QUALITY

All over the world Denmark is renowned for its strong design tradition and has been so for generations.

At RAIS we are proud to continue the successful story of Danish design. For more than 35 years, the company has designed, developed and manufactured wood-burning stoves, inserts and fireplace accessories that carefully reflect the Danish design tradition

of quality, simplicity, craftsmanship and functionality.

Today, RAIS employs a team of approximately 90 dedicated employees within the fields of development, design and production. Every single RAIS stove is carefully manufactured in the northern town of Frederikshavn and is shipped from here to the rest of the world.
