G3.5 DIRECT VENTING

Terminal Cap

Flashing

2 x 3" flex liners

Existing solid fuel fireplace and chimney

**Please Note:** The maximum vertical vent run for the Legend G3.5 is 40'. The minimum is 10'.

G3.5 PRODUCT DIMENSIONS

28-5/8" (727 mm)
21-1/4" (540 mm)
Fan box: 3" (76 mm)
6' (1.8 m) Fan power cord
Optional fan
13" (330 mm)
9" (228 mm)
3" (76 mm)
3" (76 mm)
4" (102 mm)
Trim (sold separately)
13" (102 mm)
10" (254 mm)
20" (508 mm)

G3.5 COMBUSTIBLE MANTEL CLEARANCES

With optional Fan: depth +3" (76 mm)

Do not put furniture or objects within 36" (914 mm) of the front of appliance

A

B

Non-combustible hearth

Mantel Projection A	0-6" (0-152 mm)	8" (203 mm)	10" (254 mm)	12" (305 mm)
Mantel Height B*	33" (838 mm)	35" (890 mm)	37" (940 mm)	39" (990 mm)

*Measure taken from the underside of the mantel to finished hearth or surface that the unit is sitting on.

MODEL/FUEL

Model	Fuel	Burner	Max. Input BTU/hr	Min. Input BTU/hr	Log/Rock Set	Fan Option	EnerGuide P4 Rating**	AFUE**	Max. Output (w/out fan) BTU/hr **
700IN	NG	Stainless	26,000	10,000	Log/Rock	Yes	66%	68%	19,240
700IP	LPG	Stainless	25,000	11,000	Log/Rock	Yes	66%	68%	18,500

** EnerGuide Ratings and Outputs have been determined without a fan/blower, using the CSA P.4.1-02 test method | CAN 1-2. 17 Gas Fired Appliances For Use at High Altitude
++ A.F.U.E. (Annual Fuel Use Efficiency) tested as per 10CFR - 430.23 | Certified to ANSI Z21.88 / CSA 2.33 Vented Gas Fireplace Heater Standard

	796ALP	Adjustable Leveling Platform
	GV60PAK	Power Adaptor Kit for the ValorStat Max

GLOWING CERAMIC ROOF PANEL

Due to the high efficiency compact nature of this product, you may notice some glowing on the ceramic roof panel (shown right). The amount of glow will vary slightly with different fuel effects and vent lengths and is unavoidable without sacrificing some efficiency. This glow will not impact the longevity of the appliance.

ABOUT OUR EFFICIENCY RATINGS

All Valor product literature is published using recognized Canadian and US government test methods for determining energy efficiency performance. This ensures our products will perform in your home as rated.

Beware of misleading "steady state" efficiency claims made by manufacturers using their own "in-house" test methods. For example - a large difference between an Energuide rating and a "steady state efficiency" may indicate misleading efficiency claims. Visit www.valorfireplaces.com for more information.

G3.5 LINERS

VALOR RED BRICK LINER

ENAMEL BLACK LINER

LEDGESTONE LINER

FLUTED BLACK LINER

A LEGEND IN THE MAKING

With over two decades of design innovation and four generations of Legend DNA, it's no surprise that the Legend G3.5 exudes radiance, high efficiency and the ultimate in comfort control. Clean trims and a large viewing area highlight warm, glowing flames. A contemporary update for existing spaces, the Legend G3.5 is our latest addition to the highly successful Legend Insert family.

RADIANT & CONVECTED HEAT

The G3.5 supplies a constant flow of both radiant heat and naturally convected warm air. Continuously warming objects in its path (including the human body), radiant heat satisfies your comfort needs with up to 25% less overall energy compared to forced air systems.

VALOR DYNAMIC RESTRICTOR TECHNOLOGY (VDRT)*

VDRT increases thermal efficiencies and automatically adjusts combustion air, continually maximizing fireplace performance. Another Valor first! *(Patents Pending)

NO POWER, NO PROBLEM

Engineered to circulate air through natural convection, the G3.5 is highly efficient without a fan - providing reliable heat, even during a power failure.

VALORSTAT MAX REMOTE CONTROL
(Standard with Purchase)

Easily select, adjust and program the desired temperature that you want, saving energy and lowering your overall home heating costs.

Pilot On Demand: Turn your pilot light ON and OFF from the handheld remote for years of additional energy savings.

If the optional 795CFK Fan Kit is installed, the ValorStat Max provides full control turning the fan on and off, as well as adjusting the fan speed settings.

Energy Saving Feature: The Valor SmartPilot System automatically shuts down if there is no activity after 5 days, reducing unnecessary pilot gas consumption.

USE RADIANT HEAT SAFELY

Fireplace surfaces, in particular the glass viewing window, are extremely hot during operation and will remain hot for a period of time after the fireplace is turned off. Contact with the hot glass can cause severe burns. Close adult supervision is required if there are young children, or at-risk individuals in the house. As well, a physical barrier is strongly recommended. Install an approved aftermarket safety gate to keep toddlers, young children and at-risk individuals a safe distance from the fireplace.

For more information please visit www.valorfireplaces.com/safety.
